16.	Meeting Closed.....	94

**1. MEETING OPENED****2. LEAVE OF ABSENCE****2.1 Leave of Absence**

**Date:** 19 March 2020  
**Author:** Ian Church, Chief Executive Officer  
**Responsible Officer:** Ian Church, Chief Executive Officer

---

**Summary:****Officer's Recommendation:**

**THAT Leave of Absence is granted to Councillor Tanya Milligan for Council's Ordinary Meeting to be held on 25 March 2020.**

**Attachments**

There are no attachments for this report.

**3. CONDOLENCES/GET WELL WISHES****3.1 Condolences/Get Well Wishes**

**Date:** 16 March 2020  
**Author:** Erin Carkeet, Governance and Strategy Officer  
**Responsible Officer:** Dan McPherson, Acting Group Manager People & Business Performance

---

**Summary:****Officer's Recommendation:**

**THAT letters of condolence be forwarded to the families of recently deceased persons from within, or associated with, the Lockyer Valley region.**

**4. DECLARATION OF ANY MATERIAL PERSONAL INTERESTS/CONFLICTS OF INTEREST BY COUNCILLORS AND SENIOR COUNCIL OFFICERS****4.1 Declaration of Material Personal Interest on any Item of Business**

Pursuant to section 175C of the *Local Government Act 2009*, a councillor or senior council officer who has a material personal interest in an issue to be considered at a meeting of a local government, or any of its committees must:

- (a) inform the meeting of the material personal interest in the matter, including the following particulars about the interest –
  - i. the name of the person or other entity who stands to gain a benefit, or suffer a loss, depending on the outcome of the consideration of the matter at the meeting
  - ii. how the person or other entity stands to gain the benefit or suffer the loss
  - iii. if the person or other entity who stands to gain the benefit or suffer the loss if the person or other entity is not the councillor or senior council officer—the nature of the relationship to the person or entity; and
- (b) leave the meeting room, including any area set aside for the public, and stay out of the meeting room while the matter is being discussed and voted on.

**4.2 Declaration of Conflict of Interest on any Item of Business**

Pursuant to section 175E of the *Local Government Act 2009*, a councillor or senior council officer who has a real or perceived conflict of interest in a matter to be considered at a meeting of the local government or any of its committees must inform the meeting about the personal interest in the matter, including the following particulars about the interests:

- a) the nature of the interests
- b) if the personal interests arise because of the relationship with, or receipt of a gift from, another person:
  - i. the name of the other person; and
  - ii. the nature of the relationship or value and date of receipt of the gift; and
  - iii. the nature of the other person's interests in the matter.
- c) how the councillor or senior council officer intends to handle the matter i.e. leave the meeting or proposes to stay in a meeting.

**5. MAYORAL MINUTE**

*No Mayoral Minute.*

**6. CONFIRMATION OF MINUTES****6.1 Confirmation of Ordinary Meeting Minutes 11 March 2020****Date:** 16 March 2020**Author:** Ian Church, Chief Executive Officer**Responsible Officer:** Ian Church, Chief Executive Officer

---

**Summary:****Officer's Recommendation:**

**THAT the Minutes of the Ordinary Meeting of Lockyer Valley Regional Council held on Wednesday 11 March 2020 be taken as read and confirmed.**

**7. BUSINESS ARISING FROM MINUTES**

*No Business Arising from Minutes.*

**8. COMMITTEE REPORTS**

*No Receival of Committee Reports as Minutes.*

**9. DEPUTATIONS/PRESENTATIONS**

*No Deputations/Presentations.*

---

**10. EXECUTIVE OFFICE REPORTS****10.1 Summary of Council Actual Financial Performance vs Budget - 29 February 2020****Date:** 19 March 2020**Author:** Jodi Marchant, Acting Chief Financial Officer**Responsible Officer:** Ian Church, Chief Executive Officer

---

**Summary:**

In accordance with Section 204 of the Local Government Regulation 2012, a financial report summarising the progress of Council's actual performance against budgeted performance is to be presented to Council. This report provides a summary of Council's financial performance against budget for the financial year to 29 February 2020.

**Officer's Recommendation:**

**THAT Council receive and note the Summary of Council Actual Financial Performance versus Budget to 29 February 2020.**

**Report****1. Introduction**

In accordance with section 204 of the Local Government Regulation 2012, a financial report summarising the progress of Council's actual performance against budgeted performance is to be provided to Council.

**2. Background**

Monthly reporting of Council's financial performance is a legislative requirement and reinforces sound financial management practices throughout the organisation.

**3. Report**

The following report provides a summary of Council's financial performance against budget to 29 February 2020.

**Operating Revenue - Year to date target \$51.55 million Actual \$51.55 million or 99.99%**

At 29 February 2020, overall operating revenue for the year to date is on target.

***Rates and Utility Charges (Gross) under budget by \$0.47 million***

86.34% of issued rates were collected by 17 March 2020. Rates revenue is short of budget due to a budgeted growth rate of 1.5% not being achieved to date. It is not expected the projected growth will be achieved this financial year given the current economic climate.

***Fees and Charges over budget by \$0.23 million***

The favourable variances in fees and charges relate predominately to Development Applications being \$0.24 million higher than expected and animal registrations being \$0.07 million higher than expected for this time of the year. Partially offsetting these favourable variances, Facilities is currently showing an under recovery of hire charges of \$0.02 million; Child Care is also under its expected revenue budget by \$0.06 million with the later to be monitored for trends in changing occupancy rates.

***Contract/Recoverable Works under budget by \$0.25 million***

The timing of recoverable works is due to invoices being raised after work has been completed. Contract recovery is under budget by \$0.07 million; however, it is expected that this will adjust as the year progresses and is not of concern at this stage. Revenue on food sales for the Staging Post and Lake Apex Cultural Centre is currently under budget by \$0.19 million.

***Other Revenue over budget by \$0.42 million***

Other Revenue is above budget due to the timing of rent income and other refunds and reimbursements received which were unbudgeted.

**Operating Expenditure - Year to date target \$39.05 million Actual \$38.35 million or 98.21%**

At 29 February 2020, overall operating expenditure for the year to date is on target.

***Employee costs over budget by \$0.54 million***

Employee costs are over budget due to higher than expected overtime payments which are over budget by .09 million. Redundancy payments are .27 million over budget. There are a number of payments of LSL from termination payments currently expensed against employee costs. These amounts are to be adjusted against the Provision in future months. Employee leave expenses and provisions will be monitored and adjusted at regular intervals to provide more accurate reporting.

***Goods and Services under budget by \$1.24 million***

Goods and services are slightly under budget across several areas. The larger variances include Parks and Gardens Materials \$0.13; Roads and Drainage Contractors and Materials \$0.2; Planning Scheme Consultants \$0.13; ICT Software Maintenance \$0.09; Environmental Planning, Marketing and Tourism Initiatives projects due to timing of project expenditure \$0.28; Fleet materials \$0.08; Insurance and Governance \$0.07.

Variances will be monitored closely and addressed as part of the next quarterly budget review if required.

**Capital Revenue – Year to date target \$1.97 million Actual \$1.66 million or 84.46%**

Capital grants and subsidies revenue is \$0.26K below budget. The shortfall is due to a lower than estimated amount of Blackspot and TIDS funding at this stage of the financial year. The timing of capital grants and subsidies remains largely dependent upon the completion of the annual capital works program and the grant application approval process.

The amount shown against capital expenses relates to accounting adjustments associated with Council's asset capitalisation processes and loss on disposal of assets. The high value is attributed assets being replace or upgraded prior to the end of their useful life.

**Capital Expenditure – Year to date target \$11.81 million Actual \$8.43 million or 71.39%**

At 29 February 2020, Council has expended \$8.43 million on its capital works program with a further \$2.91 million in committed costs for works currently in progress.

The main expenditures are \$7.04 million within the Infrastructure Group. A significant portion of the capital expenditure to 29 February relates to renewal works on roads and bridges, amenities at Cahill Park, expansion work at the Gatton Cemetery and the Laidley Waste Facility weighbridge.

Significant focus on deliverability and the timing of projects will be placed on all areas of the business and monitored in preparation for the adoption of the 20/21 budget and carry over capital works budget.

**Statement of Financial Position**

The Statement of Financial Position provides information on the breakdown of Council's assets and liabilities at a point in time. At 29 February, Council had \$42.24 million in current assets compared to \$11.99 million in current liabilities with a ratio of 3.52:1. This means that for every dollar of current liability, there is \$3.52 in assets to cover it.

**Statement of Cash Flows**

The Statement of Cash Flows provides information on the amount of cash coming in and going out. As at 29 February, there has been a net cash inflow of \$.33 million with \$7.41 million received from operating activities; a net cash outflow of \$6.37 million being spent on capital works; and a further net outflow of \$0.71 million for debt repayments.

The Statement of Cash Flows is important as it shows the real movement in Council's cash balances, as opposed to the accounting movements shown in the Statement of Income and Expenditure. To maintain adequate working capital, it is estimated that Council needs around \$11.00 million cash at any one time, at 29 February, Council's cash balance was \$23.43 million.

**4. Policy and Legal Implications**

Policy and legal implications will be addressed in future on matters that arise before Council.

**5. Financial and Resource Implications**

Monitoring of budgets and actuals will remain important if Council is to achieve the financial results adopted as part of the 2019-20 Budget, with any variations or anomalies to be investigated and action taken as appropriate.

**6. Delegations/Authorisations**

No further delegations are required to manage the issues raised in this report. The Chief Executive Officer will manage the requirements in line with existing delegations.

**7. Communication and Engagement**

The matters arising from this report that require further communication will be addressed through existing communication channels.

**8. Conclusion**

At 29 February, both operating revenue and expenditure are on target with variations the result of timing differences and at this stage of the financial year are not of concern.

**9. Action/s**

Nil

**11. PEOPLE & BUSINESS PERFORMANCE REPORTS****11.1 Change to operating hours at Dal Ryan Memorial Pool, Laidley and Lockyer Valley Sports and Aquatic Centre, Gatton****Date:** 18 March 2020**Author:** Kerry Wicks, Coordinator Community Facilities Business**Responsible Officer:** Dan McPherson, Acting Group Manager People & Business Performance

---

**Summary:**

The purpose of this report is to consider altering the operating hours at the Dal Ryan Memorial Pool, Laidley and Lockyer Valley Sports and Aquatic Centre, Gatton.

**Officer's Recommendation:**

**THAT Council approve trading hours at the Dal Ryan Memorial Pool, Laidley effective immediately to be:**

- **Monday, Wednesday, Thursday and Friday: 6:00am to 6:00pm;**
- **Tuesday: 11:00am to 6:00pm**
- **Saturday and Sunday: 10:00am to 5:00pm**
- **Closed Boxing Day**

**Further;**

**THAT trading commences at 1:30pm on ANZAC Day at the Dal Ryan Memorial Pool and Lockyer Valley Sports and Aquatic Centre.**

**And further;**

**THAT a report be presented to Council following the review of winter patronage is undertaken in October 2020 to consider a variation to the trading hours at the Lockyer Valley Sports and Aquatic Centre during the winter season.**

**Report****1. Introduction**

A request has been received from Swim Fit to vary the current trading hours at the Dal Ryan Memorial Pool, Laidley and the Lockyer Valley Sports and Aquatic Centre, Gatton; the purpose of this Report is for Council to formally consider this request and resolve its position in relation to this request.

**2. Background**

The Management (Swim Fit) of the Dal Ryan Memorial Pool, Laidley and Lockyer Valley Sports and Aquatic Centre, Gatton request to alter their operating hours due to low patronage, this request was received on 21 February 2020. They have also advised that they are required to reduce opening hours on ANZAC Day in accordance with state legislation.

**3. Report**

Swim Fit have been managing the Dal Ryan Memorial Pool, Laidley (Laidley Pool) and Lockyer Valley Sports and Aquatic Centre, Gatton (Gatton Pool) for the past five months. Patronage numbers have been recorded during this time and peak and off-peak times have been identified and a variation to

the current agreed times has been requested. It has also been identified that ANZAC Day falls on a Saturday, with no public holiday given on the Monday.

### **1. ANZAC Day**

Clause 8.2(b) of the Management Agreement states that the Operator may request Council's prior written consent to vary the minimum trading hours for the closure on public holidays. The Management Agreement only allows for closure of both facilities on Christmas Day and Good Friday.

State legislation regarding trading hours applies to all businesses in Queensland, trading hours depend on the category of the business. The Queensland Government website Business Queensland<sup>1</sup> defines the variety of categories. The Gatton and Laidley Pools fall under the category of Non-exempt Shops, the sub-category being 'Places of public amusement' and includes businesses such as cinemas, amusement parks and sporting events. These businesses are not permitted to open until **1.30pm**.

### **2. Vary Trading Hours – Dal Ryan Memorial Pool**

Swim Fit have requested in writing a variation to the agreed minimum trading hours at the Laidley Pool due to low patronage.

The proposed hours are:

*Monday, Wednesday, Thursday and Friday: 6am-6pm*

*Tuesday: 2pm-6pm*

*Saturday and Sunday: 10am-5pm*

The following reasons (for the request) have been provided by the Operator:

- *Lack of attendances during the mornings on the weekends. Shortening allows for us to have a staff member work the full day instead of splitting the day into 2 shifts. Allows us to use the hours to open on a Tuesday.*
- *Open Tuesday afternoons as the pool will be warmer than the morning shift, especially during the months of September and April. It would allow us the ability to extend learn to swim classes to Tuesday's as well.*

The above times show a reduction of three hours per week to the agreed minimum trading hours. The variation to times being:

- Decrease by four hours on Saturday
- Decrease by three hours on Sunday
- Increase by four hours on Tuesday

If Council agrees to amend the operating hours in line with the written request from Swim Fit, negotiations would need to occur between Council and the Operator with regards to the value of the Management Fee that is paid to the Operator.

If Council is agreeable to a variation of hours an alternative proposal to be submitted to the Operator includes varying their trading hours to:

*Monday, Wednesday, Thursday and Friday: 6am-6pm*

*Tuesday: 11am-6pm*

*Saturday and Sunday: 10am-5pm*

---

<sup>1</sup> <https://www.business.qld.gov.au/running-business/marketing-sales/trading-hours/hours/anzac-day>

This alternative proposal will avoid impacting the payment of the Management Fee to the Operator, the agreed fee will not have to be changed due to the total trading hours staying the same.

The Operator has also requested the Pool remains on closed on Boxing Day due to lack of attendance in 2019 (patronage was zero and the weather was 19-31 degrees).

### **3. Vary Trading Hours – Lockyer Valley Sports and Aquatic Centre**

Swim Fit have requested in writing a variation to the agreed minimum trading hours at the Gatton Pool during Winter (1 April to 30 September each year).

The proposed hours are:

*Monday to Friday: 6am-6pm (Gatton Swimming Club 6pm-8pm on Mondays)*

*Saturday: 7am-5pm*

*Sunday: 8am-5pm*

The above times show a reduction of two and a half hours per week to the agreed minimum trading hours. The variation request is to open on weekdays at 6am rather than 5.30am.

Currently every weekday morning swim squads start at 5:30am, except for Thursday mornings. During the winter season they will be starting squad at 6am.

It is recommended that the Operator be advised the times in the current Management Agreement remain in force this winter swim season and further evaluation undertaken during October 2020.

### **4. Policy and Legal Implications**

Policy and legal implications will continue to be addressed through existing allocations.

### **5. Financial and Resource Implications**

No change to the management fee paid to the operator is expected.

### **6. Delegations/Authorisations**

There are delegations in place to enable the recommendation made in this report to be implemented.

### **7. Communication and Engagement**

With the Community Engagement and Events branch the community at large will be notified of the changes through existing communication channels. The Operator will also advertise the time changes on their website and social media sites.

### **8. Conclusion**

The Recommendation made in this Report will enable the operator to vary their trading times in line with seasonal change and community needs.

### **9. Action/s**

1. Advise Operator approved variation to trading times at the Dal Ryan Memorial Pool.

2. Advise Operator further assessment will need to be undertaken during October 2020 prior to approving the variation to trading times at the Lockyer Valley Sports and Aquatic Centre.
3. Liaise with Community Engagement and Events branch to ensure the variations are advertised appropriately.

**Attachments**

There are no attachments for this report.

**11.2 Outstanding Agenda Action Items Review****Date:** 19 March 2020**Author:** Erin Carkeet, Governance and Strategy Officer**Responsible Officer:** Dan McPherson, Acting Group Manager People & Business Performance

---

**Summary:**

The purpose of this report is to provide Council with an update on the status of actions arising from resolutions at Ordinary and Special Council meetings for the current term of Council.

**Officer's Recommendation:**

**THAT Council receive and note the Agenda Action Items Review report providing an analysis of the action items arising from Council agenda reports for the current term of Council.**

**Report****1. Introduction**

This report provides Council with an update on the action items arising from resolutions at Ordinary and Special Council meetings from 1 May 2016 to 19 March 2020. Additional details on resolutions that have not been completed are highlighted within this report.

This report aligns with Council's Corporate Plan 2017-2022, Outcome 5.4, *'Commit to open and accountable governance to ensure community confidence and trust in Council and our democratic values.'*

**2. Background**

In the current term of Council it was determined that an update on actions arising from Council meeting resolutions be reported to Council on a quarterly basis by exception.

**3. Report**

A total of 1,687 resolutions were recorded from the Ordinary and Special Council meetings from 1 May 2016 to 19 March 2020. Of these resolutions 178 were procedural motions, which did not require an action (e.g. moving into open and closed session and items for information). Of the remaining actions, 1,486 have been completed, and 23 remain either ongoing or incomplete. The 23 ongoing/incomplete items are listed in the attachment to this report. All ongoing/incomplete items in the attachment contain notes outlining the status of each item and are updated on a regular basis.

Below is an analysis of the actions from 1 May 2016 to 19 March 2020.

Group	Total Action Items	Ongoing/Incomplete Actions	Procedural Motions (no action required)
Executive Office	223	1	178
Community & Regional Prosperity	457	7	
People & Business Performance	455	8	
Infrastructure (including the former Infrastructure Works & Services)	182	7	
Former Organisational Development & Planning	75	-	
Former Corporate & Community Services	117	-	
<b>TOTAL</b>	<b>1509</b>	<b>23</b>	

#### 4. Policy and Legal Implications

There are no policy or legal implications which arise as a result of this report.

#### 5. Financial and Resource Implications

Budget implications will continue to be addressed through existing allocations. Where additional resources are required to complete actions, these will be reported to Council to ensure transparency in the completion of actions. Where significant, the matter will be addressed through the budget review process.

#### 6. Delegations/Authorisations

No further delegations are required to manage the issues raised in this report. The relevant Group Manager and/or the Chief Executive Officer will manage the requirements in line with existing delegations.

#### 7. Communication and Engagement

The following officers were consulted in the review of the actions:

- Chief Executive Officer
- Group Manager Community & Regional Prosperity
- Group Manager Infrastructure
- Group Manager People & Business Performance

On a quarterly basis, Council will receive an updated report on the actions that are outstanding. Any actions that require further input from Council will be presented in the form of a separate agenda report.

**8. Conclusion**

This report enables Councillors to monitor, at a strategic level, the completion of actions, which have arisen as a result of resolutions of Council meetings.

**9. Action/s**

Outstanding action items are to be monitored and reported to Council on a quarterly basis.

In June 2019 Environmental Health Officer spoke with owners. Owners advised the area should be cleaned up by September 2019.

On 21 June 2019 a Notice to enter under local Govt Act was issued to GD & WB Berry advising Council officers will on 17 September 2019 to inspect and ascertain if the Notice issued on 22 November 2018 has been complied with.

Building officers will also be in attendance regarding occupation issues.

3 Sep 2019 - 8:55 AM - Hiedi Hope  
As per note on 15/7/19 - update will be given after 17/9/19

14 Oct 2019 - 11:06 AM - Hiedi Hope  
Follow up inspection undertaken 17/9/19  
ECM 3839517 - Notice letter 26/9/19 sent

Follow up inspection due 29/10/19

4 Dec 2019 - 12:12 PM - Hiedi Hope  
Notes from Environmental Health Coordinator -  
Inspection to the property was conducted 26 November 2019 and showed some further action taken but not enough to satisfy notice issued.

Warrant to enter has been approved by Management on 3 December 2019 to enter the property to obtain quotes for clean-up.

Warrant application to Garton Courts is to be made Monday 9 December 2019 and executed (if successful on application) on Wednesday 11 December at 9.00am. Two contractors will be providing written quotes for Clean-up as per Council's procurement requirements.

16 Jan 2020 - 8:43 AM - Hiedi Hope  
Quotes have been received to enter and clear property. Officers intend to issue final notice to enter and clear the property. Contact will also be made by telephone to the customer to advise potential cost to the customer.

9 Mar 2020 - 11:31 AM - Erin Carkeet  
Action reassigned to Simpson, Darryl by: Carkeet, Erin for the reason: Action referred to Coordinator Regulatory Services following organisational restructure.

10 Mar 2020 - 9:55 AM - Darryl Simpson  
Contractor has been engaged however due to inclement weather affecting property access, works have been unable to be conducted at this time.

(iv) All works associated with this approval may not start until all subsequent approvals have been obtained, and its conditions complied with.

(v) Any additions or modifications to the approved use (not covered in this approval) may be subject to further application for development approval.

(vi) Biosecurity Queensland should be notified on 13 25 23 of proposed development(s) occurring in the Fire Ant Restricted Area before earthworks commence. It should be noted that works involving movements of soil associated with earthworks may be subject to movement controls and failure to obtain necessary approvals from Biosecurity Queensland is an offence.

It is a legal obligation to report any sighting or suspicion of fire ants within 24 hours to Biosecurity Queensland on 13 25 23.

The Fire Ant Restricted Area as well as general information can be viewed on the DAF website [www.daf.qld.gov.au/fireants](http://www.daf.qld.gov.au/fireants)

Advice for Queensland Urban Utilities

On 1 July 2014, Queensland Urban Utilities became the assessment manager for the water and wastewater aspects of development applications. An application will need to be made directly to Queensland Urban Utilities for water supply connections for the proposed development.

Further;  
THAT it is noted that Council's in principle approval is provided having considered and accepted the residual risks in relation to:

- (a) Public safety risks where third parties may access the rehabilitated quarry embankments which exceed the 1:3 maximum slope set out in the Development Approval dated 20 February 1990; and
- (b) Compliance risks in relation to implementation of the Operational and Maintenance Plan to satisfy the geotechnical engineering experts' requirements to ensure the stability of the landform into the future and the maintenance of access controls to the rehabilitated land.

And Further;  
THAT Council resolve to delegate authority to the Chief Executive Officer to:

- (a) Approve the location of all access controls required by Completion Task (a);
- (b) Approve the Operational and Maintenance Plan as required by Completion Task (b); and
- (c) Issue final approval of the rehabilitation works once the Completion Tasks have been satisfactorily performed, and subject to the owner making a cancellation application to Council in accordance with section 84 of the

Land acquired on 26 April 2019 under Section 15 Agreement entered into with developer. Plan and other documents have been lodged with the Titles Registry for registration. Valuation process underway in relation to compensation. Developer indicated a change in position in May 2019 and meeting held between Council and developer representatives on 27 June 2019. New agreement for delivery of the first stage of the park reached in principle and a revised Heads of Agreement issued to the developer for signing on 3 July 2019. Awaiting signed document before incurring further design costs or releasing next stage of community engagement, which is currently being prepared.

25 Jul 2019 - 4:28 PM - *Carlton Notallier*  
Lot 902 SP309246 created (park lot) and registered in Council's name with the Titles Registry on 19 July 2019.

16 Oct 2019 - 8:24 AM - *Vickie Wieland*  
Heads of Agreement signed 3/9/19 - ECM # 3827583.

Phase 2 community engagement completed and workshoped with Council on 9/10/19 - ECM # 3842450.

100% concept design being finalised. Procurement for detailed design completed - LVRC-RFX-19-61.

Valuers to meet in November 2019 re: compensation.

2 Mar 2020 - 12:13 PM - *Erlin Carkeet*

Coordinator Legal & Property advised that, joint valuer meeting conducted – joint valuer report not finalised due to developer's valuer defaulting from agreed process. Seeking clarification on some issues in dispute from Council's external solicitors and valuer. Intend to arrange a meeting with the developer to discuss issues in dispute – heads of claim, valuation methodology and highest and best lot yield. Reported to Audit & Risk Committee on 27 Feb that developer has no legal obligation at this stage to pay cash contribution by end of March 2020 – only a good faith commitment and construction risk can be managed by adjustments to Council's capital program budget and work schedule if necessary.

**12. COMMUNITY & REGIONAL PROSPERITY REPORTS****12.1 Application for a Minor Change to Approval for Material Change of Use for Expansion to Poultry Farm (Additional 100,000 birds) (DA4784) on Lot 309 CH311850 at 303 Grantham Scrub Road, Veradilla****Date:** 30 January 2020**Author:** Mark Westaway, Planning Officer**Responsible Officer:** David Lewis, Group Manager Community & Regional Prosperity**Summary:**

The purpose of this report is to consider an application for a Minor Change to Approval (MC2020/0010) for Material Change of Use for Expansion to Poultry Farm (Additional 100,000 birds) (DA4784) on Lot 309 CH311850 at 303 Grantham Scrub Road, Veradilla.

The application has been assessed in accordance with the requirements of the *Planning Act 2016* and it is recommended that the proposal be approved in accordance with the Officer's Recommendation.

**Officer's Recommendation:**

**THAT the application for a Minor Change to Approval (MC2020/0010) for Material Change of Use for Extension to an Existing Poultry Farm (additional 100,000 birds) (DA4784) on Lot 309 CH311850 at 303 Grantham Scrub Road, Veradilla be approved subject to the following:**

**A. Update the Approved Plans as follows:****PLANS REQUIRING AMENDMENT**

The following plans require amendment prior to becoming Approved Plans for the development:

**Amended Plans**

Plan No.	Rev.	Plan Name	Date
M2677 3000 001	A	<i>Contour &amp; Detail Survey, Shed Dimension Plan, prepared by Minstaff Survey Pty Ltd – annotated in red by LM Planning Solutions and received by Council 18/9/19</i>	23/04/2019

- B. That Council write to the Minister for State Development Manufacturing, Infrastructure and Planning requesting that Sections 77-83 of the *Planning Act 2016* be reviewed with respect to the ability to consider a Negotiated Decision for a Minor Change rather than the requirement for a new change application for a Minor Change application to be made.**

**Report****1. Introduction**

The applicant seeks a Minor Change to Approval (MC2020/0010) for Material Change of Use for Extension to an Existing Poultry Farm (additional 100,000 birds) (DA4784) on Lot 309 CH311850 at 303 Grantham Scrub Road, Veradilla. There is a separate Environmentally Relevant Activity No.4 (2) – Poultry Farming (2B). The subject land is zoned Rural General under the *Gatton Shire Council Planning Scheme 2007*.

**2. Background**

The additional sheds and extension to existing sheds proposed as a part of the amended plans do not result in the development exceeding the previously approved numbers of birds on the site.

On 15 March 1993, a Building Permit was issued for 29 Class 8 Poultry Sheds. The layout of the sheds associated with that building approval does not reflect the layout of existing buildings on site.

On 4 July 2007, Council approved a Material Change of Use (MCU) and Environmentally Relevant Activity (ERA) No.4 for Poultry Farming for an additional 100,000 birds. This resulted in the poultry farm having a maximum capacity of 160,000 birds.

On 28 June 2019, a request for change was lodged for an Other Change to the development permit for a Poultry Farm (DA4784). The application arose from a compliance matter. Some changes to the layout and the conditions of approval were sought after discussions with the Applicant (MC2019/0039). This change application was originally considered by Council at its Ordinary Meeting held 22 January 2020 (Resolution 16-20/1633). This resolution was rescinded at Council's Ordinary Meeting held 12 February 2020 (Resolution 16-20/1646) due to a procedural error as the change application required relodging as a Minor Change application, rather than an Other Change.

The site currently contains 16 poultry sheds with an approximate carrying capacity of 101,600 birds.

- Eleven of these sheds function as rearing sheds. These sheds have a combined gross floor area of 8,023.5m<sup>2</sup> and a prescribed holding capacity of 80,235 birds, based on a rate of 10 birds/m<sup>2</sup>.
- Five of these sheds function as adult layer sheds. These sheds have a combined gross floor area of 4,268.7m<sup>2</sup> and a prescribed holding capacity of 21,343 birds, based on a rate of 5 birds/m<sup>2</sup>.

The development is subject to a maximum number of birds. A new MCU application would be required if it was intended to materially increase the scale of the development beyond the number of birds specified in the existing approval.

The development could contain additional birds if the sheds were being used as broiler sheds, however the existing and proposed rearing sheds and adult layer sheds result in a lower density of birds. It would not be cost effective for the developer / operator / owner to change the function of the existing sheds as significant changes would be required to the sheds.

### 3. Report

#### Proposed Development

The applicant is seeking to have an amended version of the plans approved, and conditions associated with the existing approval amended to reflect current operations on the site.

#### Subject Land

The subject site is located at 303 Grantham Scrub Road, Veradilla described as Lot 309 CH311850 and is located within the Rural General Zone under the *Gatton Shire Council Planning Scheme 2007*. The site contains an existing poultry farm.

#### Assessment

##### Statutory Process

An application was made for a minor change to a development approval under s78 of the *Planning Act 2016*. Such an application can only be made in certain circumstances where the change meets the definition of a 'minor change' under the *Act*.

The proposed change to the development approval requested by the applicant is determined to constitute a minor change on the grounds that:

- The change does not result in a substantially different development;
- The change does not cause the inclusion of prohibited development;
- The change does not cause the application to be referred to any additional referral agencies; and
- The proposed change does not cause the application to require public notification.

On this basis, the application is considered to be a minor change to a development approval.

##### Assessment of Minor Change

The *Planning Act 2016* requires that the change application be assessed against the matters that applied when the original application was made, but may have regard to the matters that apply now.

The following Planning Scheme provisions applied to the original application:

<b>Planning Scheme:</b>	<i>Planning Scheme for the Gatton Shire 1995</i>
<b>Zone:</b>	Rural Landscape Zone
<b>Assessment Benchmarks:</b>	<ul style="list-style-type: none"> <li>• Desired Environmental Outcomes;</li> <li>• Rural Zone Code;</li> <li>• Vehicle Access, Parking &amp; On-Site Movement;</li> <li>• Intensive Animal Industries Code.</li> </ul>

The *Gatton Shire Council Planning Scheme 2007* came into effect on 1 July 2007 prior to Council approving the original decision on 4 July 2007. As the application was assessed at a time when the *Gatton Shire Council Planning Scheme 2007* was close to being brought into effect, weight could be

given to that draft scheme in accordance with the Coty principle, however it was not considered the application should be refused.

A new application lodged at the current time would be subject to the following Planning Scheme provisions:

<b>Planning Scheme:</b>	<i>Gatton Shire Council Planning Scheme 2007</i>
<b>Zone:</b>	Rural General Zone
<b>Assessment Benchmarks:</b>	Entire Planning Scheme

Differences between the two schemes include the following:

- The side or rear boundary setback for a poultry farm under the *Gatton Planning Scheme 2007* increases to 200m compared with 20m under the 1995 Planning Scheme.
- The separation distance from a poultry farm to a dwelling on surrounding land under the *Gatton Planning Scheme 2007* increases to 500m compared with 150m under the 1995 Planning Scheme.
- A 10m wide landscaping strip around the perimeter of the site or use areas within a site was a typical requirement under the 1995 Planning Scheme.

The application was originally subject to an Environmentally Relevant Activity devolved to Council. In 2014, the Department of Agriculture and Fisheries issued an Environmental Authority (EA) for the poultry farm which overrides Council's environmental conditions for the proposal. SARA has confirmed referral is not required for this application.

#### Condition C1

C1	<i>The site must be developed generally in accordance with the Site Plan as received with the application and marked 'approved' and Environmental Management Plan – Nelbex Pty Ltd, prepared by Mokoan Agriculture.</i>	<i>To be completed prior to the commencement of use.</i>
----	---	--

#### Applicant's comment

*"As indicated on the proposed plans prepared by Minstaff Surveys Pty Ltd the request seeks approval for three (3) additional, as constructed Sheds; being described as Shed 5A, Shed 14 and Shed 15.*

*However, it is submitted that these three (3) additional structures warrant favourable consideration in this instance for the following reasons –*

*~ In accordance with the Development Permit for a Material Change of Use and Environmentally Relevant Activity No. 4 – Poultry Farming (2B) (Impact Assessment for an extension to an existing Poultry Farm) an approval was issued to the land owner on the 9<sup>th</sup> of July 2007 for an additional 160,000 birds (Council Reference DA4784).*

*In accordance with the holding capacity tables below there are no more than 100,000 birds on the poultry farm at any given time being notably less than the maximum allowed. In addition, on any given day a minimum of two (2) of the 'rearing' Sheds will be void of any birds whilst*

*waiting for the next incoming batch. It is submitted that this holding capacity is directly consistent with the above-mentioned Development Permit.*

*As discussed on the 16<sup>th</sup> of October I am now of the understanding that Council support the additional 'as constructed' Sheds, the proposed extensions and the proposed additional Sheds as detailed on the plan entitled 18.09.2019 Proposed Amendments."*

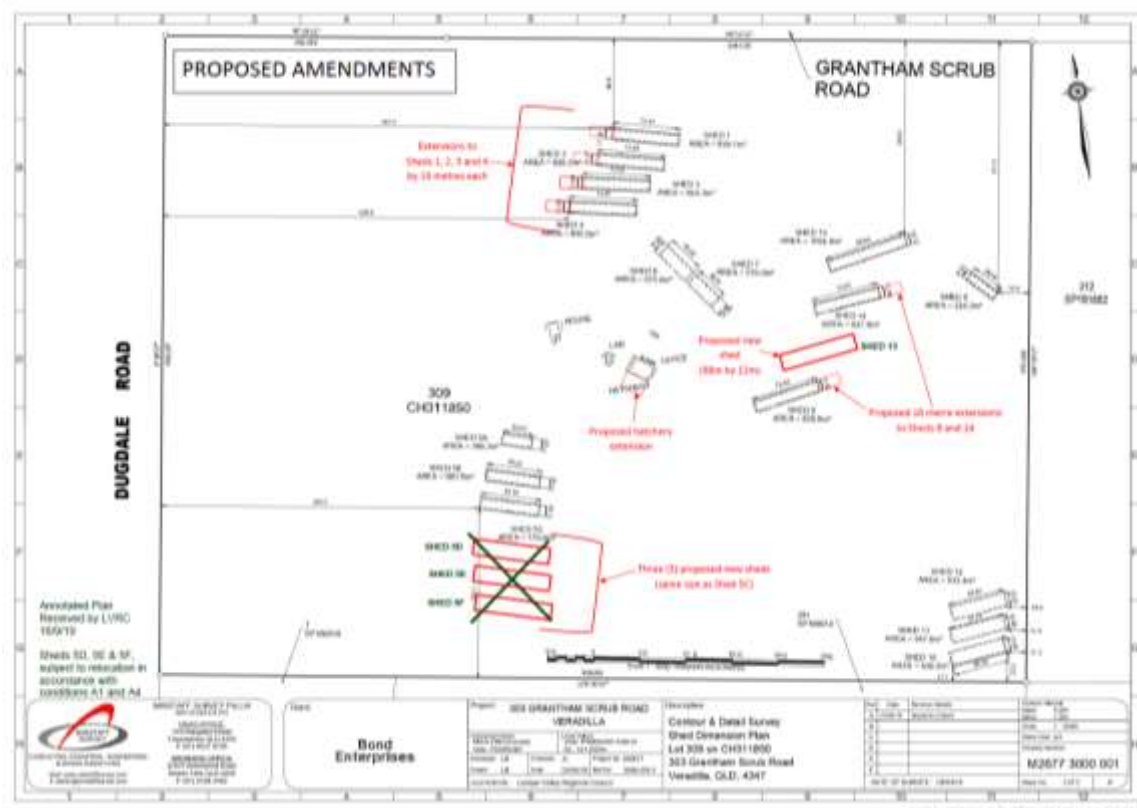

Council comment

Discussions with the applicant confirmed that the development was operating at less than two thirds of its approved capacity, due to the type of poultry operations occurring on site as well as the number and size of buildings constructed on site. As a result, it was suggested that an amended plan be provided that enabled the proposed development to function to its approved capacity.

The applicant submitted an amended plan that proposes 4 new sheds, and extensions to 6 other sheds. Based on the function of the existing sheds, these additional buildings increase the carrying capacity of the farm by approximately 33,150 additional birds, which results in a total carrying capacity of approximately 135,000 birds, which is still well under the approved maximum capacity of 160,000 birds.

Further investigation of the previous approval indicated that additional sheds had originally been proposed to the south of Shed 5C, however these were removed as part of negotiations with the applicant and submitter. It is considered that reintroducing sheds into this area would not constitute a Minor Change. Providing these three sheds 5D, 5E and 5F into another part of the site, no closer to the southern boundary than Shed 5C is considered suitable to consider this as a Minor Change. Alternative sites could include areas east of Sheds 5A-5C, south of Shed 4, south of Shed 8, or north of Shed 15.

Apart from the above matters with respect to Sheds 5D, 5E and 5F, it is considered that this plan would generally satisfy condition C1, however landscaping and buffering has not been included on the plan. The applicant has sought a deletion of the condition requiring landscaping on the site, which is not supported.

It is recommended that the condition be amended as follows:

C1	<p>The site must be developed generally in accordance with an amended plan based on the Site Plan prepared by Minstaff Survey, and annotated in red by LM Planning Solutions as <del>received with the application and marked 'approved'</del> and Environmental Management Plan – Nelbex Pty Ltd, prepared by Mokoan Agriculture.</p> <p>The amended plan is to ensure proposed Sheds 5D, 5E and 5F are not located closer to the southern or western boundary of the property than Shed 5C, or closer to the eastern boundary than Shed 15.</p>	To be completed prior to the commencement of use.
----	---	---

#### Condition C4

C4	<p><i>An amended Site Plan is to be submitted to Council reflecting the location of the proposed and existing structures. It shall include but not be limited to; boundary setbacks, finished levels and site contours, landscaping and buffering, dam locations, retaining structures, internal roads and driveways.</i></p>	To be completed prior to the commencement of use.
----	---	---

Applicant's comment

---

*As indicated in Part 4 Proposed Plans Minstaff Survey Pty Ltd have prepared the following documentation in response to Condition C4 –*

- 1) Contour & Detail Survey*
- 2) Contour & Detail Survey – UAV Image Plan*
- 3) Contour & Detail Survey – Shed Dimension Plan*

*It is submitted that the above-mentioned plans are fully compliant with Condition C4 in this instance.*

*“The documentation prepared by Minstaff Survey Pty Ltd identifies the following information –  
Finished levels and site contours;*

- Dam locations;*
- Landscaping and buffering;*
- Internal fencing, roads and driveways;*
- Location of all existing poultry sheds including dimensions;*
- Location of all other existing structures including the dwelling house, office, garage, hatchery and laboratory; and*
- All minimum site boundary setbacks;*

*In accordance with Council’s Decision Notice (Council Reference DA4784) all existing structures appear to have been approved by Council on the 9th of July 2007 with the exception of three (3) As Constructed Poultry Sheds; being described on the documentation prepared by Minstaff Survey Pty Ltd as Shed 5A, Shed 14 and Shed 15.”*

*“As discussed on the 16<sup>th</sup> of October I am now of the understanding that Council support the plans prepared by Minstaff Surveys for the ‘as constructed’ Sheds and the plan entitled 18.09.2019 Proposed Amendments which details the proposed extensions and the proposed additional Sheds.”*

#### Council comment

Condition C4 was imposed as the site plan submitted with the 2007 application was not to scale, and did not accurately represent the site layout.

The plan submitted by Minstaff Surveys and annotated in red by LM Planning Solutions is considered to provide a suitably dimensioned site plan. Shed 5C is located approximately 182m from the southern property boundary.

The original plans submitted with the 2007 application proposed 3 sheds to the south of what is now described as Shed 5C. These sheds had a minimum setback of 110m to the southern boundary. It is noted that one of the submissions (by a person who no longer owns an adjoining property) associated with the 2007 application was effectively resolved through not proposing additional buildings south of Shed 5C. The new owner of the adjoining property may have been aware of the previous outcome, and as such, would not have been aware of additional sheds proposed to be placed to the south of Shed 5C. As a result, it is recommended that proposed Sheds 5D, 5E and 5F are located on other parts of the site.

It is considered that this plan, subject to changes, would satisfy condition C4. As a result, Condition C4 could be amended, subject to inclusion of the updated plan in the list of approved plans for this development.

C4	<p>An amended Site Plan is to be submitted to Council reflecting the location of the proposed and existing structures. It shall include but not be limited to; boundary setbacks, finished levels and site contours, landscaping and buffering, dam locations, retaining structures, internal roads and driveways.</p> <p>The amended plan is to ensure proposed Sheds 5D, 5E and 5F are not located closer to the southern or western boundary of the property than Shed 5C or closer to the eastern boundary than Shed 15.</p>	To be completed prior to the commencement of use.
----	--	---

Condition D41

D41	<i>All proposed structures are to be appropriately classified as per Part A.3 of the Building Code of Australia.</i>	<i>To be completed as part of Building Approval.</i>
-----	--	--

Applicant's comment

*"As indicated on the proposed plans the existing improvements appear to comprise Class 1a, Class 5, Class 7, Class 10a and Class 10b structures.*

*However, a Private Certifier will be engaged by the land owner to obtain a Development Permit for Building Work and Plumbing and Drainage Work once Council's assessment of this Request has been decided. Accordingly, all structures will be appropriately classified as per Part A.3 of the Building Code of Australia by this suitably qualified consultant in due course.*

*It is submitted that the provision of the building classifications by a Private Certifier will be fully compliant with Condition D41 in this instance."*

Council comment

The above comments are noted. It is understood a certifier has been engaged and is waiting for resolution of this request to change.

No change is required to the condition.

Condition M10

M10	<i>A separate Development application for Building Work, Plumbing and Drainage Work together with the necessary supporting information and fees, must be lodged with and approved by Council (or by a private Certifier where applicable) before the commencement of construction works.</i>	<i>To be completed prior to the commencement of use.</i>
-----	--	--

Applicant's comment

*“A Private Certifier will be engaged by the land owner to obtain a Development Permit for all existing Building Work and any applicable Plumbing and Drainage Works once Council’s assessment of this Request has been decided.*

*The land owner was referred to me by Geoff Mitchell from GMA Certification Group on the 23<sup>rd</sup> of August 2018. As the development application for Building Work and Plumbing and Drainage Work cannot be completed until Council have issued a Decision Notice for the Request for Change (Other) application it is my understanding that the land owner will be engaging GMA to obtain these additional permits.*

*It is submitted that this will be fully compliant with Condition M10 in due course.”*

#### Council comment

The above comments are noted. It is understood a certifier has been engaged and is waiting for resolution of this request to change.

No change is required to the condition.

#### Condition N8

N8	<i>The developer must ensure that any existing and all proposed structures comply with boundary and fire separation clearances prescribed within the Building Code of Australia and subordinate legislations.</i>	<i>To be completed prior to the commencement of use.</i>
----	---	--

#### Applicant comment

*“As indicated on the proposed plans prepared by Minstaff Survey Pty Ltd the existing structures maintain setbacks of 96.9 metres to the front (northern) boundary, 17.1 metres to the rear (southern) boundary, 345.5 metres to the right hand side (western) boundary and 20.9 metres to the left hand side (eastern) boundary.*

*In addition, all of these setbacks were approved as part of the Material Change of Use and Environmentally Relevant Activity No. 4 – Poultry Farming (2B) Impact Assessment for an extension to an existing Poultry Farm (additional 160,000 birds) which was issued by Council on the 9<sup>th</sup> of July 2007 (refer to Part 5 Supporting Documentation).*

*Accordingly, it is submitted that the development is directly consistent with N8 in this instance.”*

#### Council comment

The above comments are noted. It is understood a certifier has been engaged and is waiting for resolution of this request to change.

No change is required to the condition.

#### Condition N9

N9	<p>All structures on site must be situated and maintained at a minimum:</p> <p>100m from any road frontage,</p> <p>100m from any Natural Watercourse,</p> <p>20m from any side or rear boundary,</p> <p>150m from any dwelling on surrounding land;</p> <p>Building setbacks must be measured from the outermost projection of the building (gutter or fascia) to the nearest point of the relevant property boundary.</p>	To be completed prior to the commencement of use.
----	--	---

#### Council comment

All of the new sheds are proposed to be located over 100m from road frontages.

It is proposed to extend the existing shed described as Shed 1. The length of Shed 1 is proposed to be extended by a length of 16 metres. The existing northwest corner of Shed 1 building is 96.9m from Grantham Scrub Road. The existing northeast corner of Shed 1 is scaled at a distance of approximately 103.4m from Grantham Scrub Road. Based on the existing 72.4m length of Shed 1, and that shed having a variation in setback to Grantham Scrub Road (between 96.9m and approximately 103.4m), a 16m extension to the shed would result in the northwest corner of the extension encroaching approximately 1.5m closer to Grantham Scrub Road than the existing northwest corner of Shed 1. In order to retain the existing setback requirements for the rest of the buildings on the site, it is proposed to amend the wording of the condition to address the exception created by Shed 1.

There are a number of existing other buildings that are set back a lesser distance from property boundaries. It is not intended to require buildings to be removed in order to comply with the condition.

A query had been made with respect to the condition referencing a 20m setback from the side boundary. The condition does not stand in isolation of the approved plan and refers to new structures. None of the other new buildings on the site are proposed to be within 100m of the side or rear boundary of the site.

#### Recommendation

It is recommended Condition N9 be amended as follows.

N9	<p>With the exception of the extension to Shed 1, all new <del>All</del> structures on site must be situated and maintained at a minimum:</p> <p>100m from any road frontage,</p> <p>100m from any Natural Watercourse,</p> <p>20m from any side or rear boundary,</p> <p>150m from any dwelling on surrounding land;</p> <p>Building setbacks must be measured from the outermost projection of the building (gutter or fascia) to the nearest point of</p>	To be completed prior to the commencement of use.
----	--	---

	the relevant property boundary.  Note: The extension to Shed 1 will result in a setback of approximately 95.4m from Grantham Scrub Road.	
--	--	--

Condition N24

N24	<i>All unapproved structures will require a building permit approved by Council or a Private Certifier where in accordance with all relevant building regulations.</i>	<i>To be completed prior to the commencement of use.</i>
-----	--	--

*“As previously discussed, a Private Certifier will be engaged by the land owner to obtain a Development Permit for all unapproved structures once Council’s assessment of this Request has been decided. It is submitted that this development will be fully compliant with Condition N24 in due course.”*

Council comment

The above comments are noted. It is understood a certifier has been engaged and is waiting for resolution of this request to change.

No change is required to the condition.

Other conditions

As a part of the assessment of the application, a number of additional items were raised with respect to the development complying with existing conditions.

Condition A8

A8	<i>A reinforced concrete, heavy duty industrial crossover must be constructed between the kerb line and property boundary at each access point.</i>	<i>To be completed prior to the commencement of use.</i>
----	---	--

Applicant’s comment

*“To my knowledge the site has been utilised as a Poultry Farm since approximately 1992. Accordingly the existing crossover and driveway have provided access to and egress from the site for almost three (3) decades. To my knowledge the current construction of the crossover and driveway have not presented any safety or nuisance issues.*

*As such I would like to request Council’s consideration to either remove this Condition or alternatively to amend this Condition to potentially require the crossover between the kerb line and property boundary to be ‘all weather access’.”*

Council comment

The existing vehicular crossover is gravelled. The poultry farm has been operational since approximately 1993. There is minimal evidence of material being tracked onto Grantham Scrub Road.

As a result, it is considered the existing vehicle crossover is operating in a satisfactory manner, and it is considered the crossover therefore does not need to be upgraded to a concrete crossover. However if material starts being tracked out of the site onto Grantham Scrub Road it would be necessary for the developer / operator of the poultry farm to arrange for that material to be cleaned off the road.

It is considered the condition should be amended as follows:

A8	An all-weather industrial <del>reinforced concrete heavy-duty industrial</del> crossover must be constructed between the kerb line and property boundary at each access point.	To be completed prior to the commencement of use.
----	--	---

It is considered an additional condition should be included as follows:

A8A	Any material tracked onto Grantham Scrub Road from vehicles exiting the site is to be cleaned off the road pavement.	Ongoing
-----	--	---------

#### Condition B8

B8	<i>A vegetated buffer comprising native species shall be provided and maintained to screen the existing sheds 7,8,9 and 3. This shall be provided at an approximate distance of 50m south of Shed 3 and along the southern property boundary behind sheds 7,8,9 as generally shown on the approved plan and to the satisfaction of Council. Where trees die off these shall be reinstated.</i>	<i>To be completed prior to the commencement of use and maintained.</i>
----	--	---

#### Applicant's comment

*"Based on the current state of critical water shortages throughout SEQ and particularly within this local area I would like to request Council's consideration to remove this Condition.*

*I believe that, in order for the land owner to comply with this Condition, that it would impose an unnecessary strain on the availability of limited water resources within the region.*

*In addition, all of the existing and proposed Sheds maintain ample setbacks from the site boundaries ensuring adequate buffers are already provided between adjoining land uses."*

#### Council comment

The sheds that are described as sheds 3, 7, 8 and 9 in this condition are identified as Sheds 5B, 10, 11 and 12 on the new plan submitted by Minstaff Survey. These sheds have already been constructed.

Landscaping is typically provided as a form of screening or buffering to adjoining or surrounding properties. The condition is generally seen as a reasonable mechanism to address visual amenity issues. The current drought is not considered to constitute sufficient rationale to not require the landscaping.

It is noted that the sheds in the southeast corner of the site (sheds 10, 11 and 12) are located less than 20m from the southern and eastern boundaries of the site, however they are located approximately 750m from the nearest houses on adjoining properties.

The proposed sheds located in proximity to Shed 5 are approximately 550m from the nearest house on an adjoining property.

Based on the distances from the houses on adjoining properties, it is considered the sheds would create minimal visual impact on surrounding properties if a landscaped buffer is not provided, however in the 2007 report, it was advised the applicant had purchased 200 trees to be used as a buffer on the southern side of the property from the salinity Reduction Project. It is therefore considered that trees should be planted as originally proposed.

Given there is a requirement for a 6m firebreak, and there is an internal road between the rear boundary of the site and the sheds, it is also considered there is minimal area available for a landscape buffer between the sheds and the southern boundary of the site.

It is considered the fire break would potentially conflict with the proposed landscape buffer adjacent to Sheds 10-12.

However, the Gatton Planning Scheme would typically require building setbacks for poultry sheds to be located a minimum of 200m from a side or rear boundary. As a result, it would be relevant to retain the requirement for a landscaped buffer between the sheds and the adjoining properties.

It is considered the condition should be amended as follows:

B8	<p>(a) A 10m wide vegetated buffer comprising native species shall be provided and maintained to screen the existing sheds <del>7,8,9 and 3</del> 10, 11, 12 and 5A-5C. This shall be provided at an approximate distance of 50m south of Shed <del>3</del> 5C and along the southern property boundary behind sheds <del>7,8,9</del> 10, 11 and 12 as generally shown on the approved plan and to the satisfaction of Council. Where trees die off these shall be reinstated.</p> <p>(b) A 10m wide vegetated buffer comprising native species shall be provided and maintained to screen proposed sheds 5D-5F from the southern or eastern boundary, whichever is closer. The buffer shall be provided approximately within 50m of the shed that is being buffered as generally shown on the approved plan and to the satisfaction of Council. Where trees die off these shall be reinstated.</p>	To be completed prior to the commencement of use and maintained.
----	---	--

#### Condition I11

I11	<i>The applicant shall provide a Bush Fire Management Plan.</i>	<i>To be completed prior to the commencement of use.</i>
-----	---	--

Applicant's comments

*"I have previously been advised by the private certifier that they are able to confirm that all existing and proposed structures comply with the applicable Standards.*

*In addition, despite one (1) small portion of the site being identified as being affected by a Bushfire Overlay, all existing and proposed structures are located outside these areas.*

*As such I would like to request Council's consideration to either remove this Condition or alternatively to amend this Condition to potentially require the private certifier to confirm that the development complies prior to the issue of the Development Permit for Building Works."*

Council comments

The development includes a large scale rural industrial activity. While Council's bushfire overlay mapping does not accurately represent the location of vegetation on the site or adjoining properties, state mapping does indicate areas of Medium Bushfire Hazard on site.

It is recommended a bushfire management plan still be required in this circumstance, and that the condition remain unchanged.

Condition I12

I11	<i>Six metre Firebreaks must be prepared and maintained along the boundary fence line. These must be prepared to a minimum mown standard clear of vegetation.</i>	<i>To be completed prior to the commencement of use and maintained.</i>
-----	---	---

Applicant's comment

*"As indicated on the plans the site is predominantly void of any significant vegetation.*

*As such I would like to request Council's consideration to either remove this Condition."*

Council comments

The majority of the site is not vegetated along the property boundaries. The wording and timing of the condition is designed to provide ongoing maintenance along the property boundaries to prevent a proliferation of vegetation along property boundaries, in order to minimise any ongoing increase in bushfire risk.

It is considered the condition should remain unchanged.

Condition K34

K34	<i>The disposal, burial or incineration and burning of waste materials, vegetation, or other materials must not be conducted on the premises.</i>	<i>Ongoing</i>
-----	---	----------------

Applicant's comment

The applicant's client *"advised on the 18/10/2019 that they don't incinerate or burn waste materials, vegetation or other materials on-site. However, [the client] has advised that the EPA approved the disposal of organic matter and hatchery shells on-site. Accordingly, they would like to request the removal of the word 'disposal' from this Condition."*

Council comments

Discussion has occurred with the Department of Agriculture and Fisheries [DAF] with respect to the applicant's development. The development is subject to an Environmental Approval (EA) issued in 2014, which takes precedence over the conditions on the Decision Notice. The development is subject to the EA, and matters of environmental compliance are managed by DAF. In order to avoid conflict with the EA, it is therefore considered the condition can be deleted.

Condition K41

K41	<p><i>Establish procedures for the storage, handling and management of all solid and liquid wastes generated by the activities and processes of the premises.</i></p> <ul style="list-style-type: none"> <li>- <i>Never dispose of waste onsite.</i></li> <li>- <i>Always dispose of non-recyclable waste at a licensed general waste disposal facility (e.g. local government service or approved waste removalist).</i></li> <li>- <i>Keep proof of proper disposal of waste from the site for presentation to Council Officers.</i></li> <li>- <i>Empty all containers or vessels containing oils, solvents and other chemicals or potential contaminants before disposing via the industrial bins.</i></li> <li>- <i>Manure and litter must be removed from the property as per EMS.</i></li> <li>- <i>All egg waste and dead birds must be contained and store appropriately before removal from the property by a licences waste contract as per EMS.</i></li> <li>- <i>Composting of dead birds and other waste materials must not be undertaken on the premises, unless express written authorisation has been issued by an authorised officer of Council.</i></li> </ul>	<p><i>To be completed prior to the commencement of use and maintained.</i></p>
-----	---	--

Applicant comments

The client advised on 18/10/2019 the following for each of the above bullet points.

- *[The operators] currently have procedures in place for the storage, handling and management of all solid and liquid wastes generated by the activities. It is submitted that the development therefore complies.*
- *In accordance with the original approval [the operators] currently dispose of organic matter and hatchery shells on-site. Accordingly, we request that this Condition either be removed or re-worded to reflect the current activity.*

- *Complies. Hatchery water waste and grease trap operator plus sump pump on reservoir tank which is distributed over their fields and paddocks only.*
- *The land owners are happy to comply with this Condition. As such please advise how Council would like the land owners to document this to Council's satisfaction.*
- *[The operator] has advised that all oils are stored in an old shed. He also advised that the amount of oil only requires disposal every 5 years (maximum). As such we request that this Condition be removed.*
- *The land owners remove all manure and litter and spread the manure on cattle farms they own. It is therefore submitted that the development complies with this Condition.*
- *In accordance with the original approval all egg waste and dead birds are buried on-site. As such we request that this Condition be either removed or re-worded to reflect correct, on-site disposal methods.*
- *In accordance with the original approval composting of dead birds and other waste materials is currently conducted on-site. As such we request the express written authorisation for this activity to occur from an authorised officer of Council."*

#### Council comments

Discussion has occurred with the Department of Agriculture and Fisheries [DAF] with respect to the applicant's development. The development is subject to an Environmental Approval (EA) issued in 2014, which takes precedence over the conditions on the Decision Notice. The development is subject to the EA, and matters of environmental compliance are managed by DAF. In order to avoid conflict with the EA, it is therefore considered the condition can be deleted.

#### Condition N7

N7	<i>The approved gross floor area (GFA) must not exceed 6500 square metres. The total GFA for each individual building is to be provided to Council prior to the commencement of any building works.</i>	<i>Ongoing unless otherwise approved.</i>
----	---	---

#### Applicant's comments

*As indicated on the proposed plan entitled 18.09.2019 Proposed Amendments all existing and proposed shed sizes are included.*

*In addition, this Condition allows for an increase in the GFA if 'otherwise approved'.*

#### Council comments

The figures provided by the applicant indicated the existing buildings (to date) had an approximate GFA of 12,292.2m<sup>2</sup>. This does not include the hatchery or laboratory, which had a combined GFA of approximately 450m<sup>2</sup>.

The 2007 application originally proposed a larger development, however according to the Council report in 2007, this was reduced in size to mediate concerns from submitters.

This condition is poorly worded. The planning report from 2007 referenced a maximum increase in GFA of 6,500m<sup>2</sup> but that was not reflected in the wording of the condition. The wording of the condition indicates a maximum GFA of 6,500m<sup>2</sup>.

With respect to the scale of this development:

- The sheds that existed in 2007 had a combined GFA of approximately 6,306.4m<sup>2</sup> including the hatchery and laboratory.
- The additional sheds that have been constructed between 2007 and 2019 have a combined additional GFA of approximately 6,301.6m<sup>2</sup>.
- The additional sheds (and extensions to existing sheds) proposed to be constructed as a part of this change have a combined GFA of 4,470m<sup>2</sup>.
- Overall, the combined increase in GFA for the sheds constructed between 2007 and today, and the additional sheds proposed on the plans increase by approximately 10,771m<sup>2</sup>.
- Ultimately, the development would have an approximate GFA of 17,077.4m<sup>2</sup>.

As highlighted by the applicant, the condition allows for an increase in the GFA of the development if “otherwise approved”.

As previously noted with respect to the scale of development, the expansion of the poultry farm will result in the carrying capacity of the farm still remaining below the maximum numbers of birds allowed by the approval.

The critical threshold for the development relates to the numbers of birds approved for the site. It is therefore suggested that the maximum GFA of the buildings on the site is superfluous to requirements. It is suggested the condition could therefore be deleted.

### **Consultation**

Input was sought from Council’s Development Engineering and Environmental Health sections, and the Department of Agriculture and Fisheries.

#### **4. Policy and Legal Implications**

Council had commenced compliance action against the current owner/operator of the premises due to a number of the buildings having been constructed without building approval. Following a decision made by Council on the application, the applicant may appeal against Council’s decision. If the applicant decides to appeal the decision by Council, legal representation may be required.

#### **5. Financial and Resource Implications**

Following a decision made by Council on the application, the applicant may appeal against Council’s decision, which will have financial and resource implications for Council.

#### **6. Delegations/Authorisations**

There are no implications for delegations or authorisations arising from the recommendation provided in this report.

#### **7. Communication and Engagement**

The decision of Council will be formally communicated to the applicant in accordance with the requirements of the *Planning Act 2016*.

**8. Conclusion**

The proposed changes to the development constitute a minor change. It is recommended that the changes are approved as per the recommendation.

**9. Action/s**

Advise the applicant of Council's decision.

**Attachments**

There are no attachments for this report.

**13. INFRASTRUCTURE REPORTS****13.1 Gatton Heavy Vehicle Decoupling Site**

**Date:** 03 February 2020  
**Author:** Angelo Casagrande, Group Manager Infrastructure  
**Responsible Officer:** Angelo Casagrande, Group Manager Infrastructure

---

**Summary:**

The purpose of this report is to seek formal response from Council on whether it has any objections to the Queensland Department of Transport and Main Roads transferring an area of land from Lot 167 on SP 154248 for road purposes to allow the construction of the Gatton Heavy Vehicle Decoupling Facility.

**Officer's Recommendation:**

**THAT Council has no objection to the transfer of the indicated land area from Lot 167 on SP 154248 for the purposes of road opening by the Queensland Department of Transport and Main Roads to allow the construction of the Gatton Heavy Vehicle Decoupling Facility.**

**Report****1. Introduction**

This report is to advise Council of the intention by the Queensland Department of Transport and Main Roads to transfer an area of land from the University of Queensland by the Department of Transport and Main Roads for road purposes to establish a Heavy Vehicle Decoupling Facility at the Warrego Highway / Gatton – Esk Road Interchange.

**2. Background**

The Queensland Department of Transport and Main Roads (DTMR) is intending to construct a long-term Heavy Vehicle Decoupling Facility along the Warrego Highway East of the Toowoomba Second Range Crossing (TSRC). A site has been selected by the department adjacent to the South-Eastern roundabout off the Warrego Highway / Gatton – Esk Road interchange.

Prior to the full opening of the TSRC heavy vehicle combinations greater than Performance Based Standards (PBS) Level 2 (B-Double & A-Double) wishing to travel East of Toowoomba to Brisbane on the Warrego Highway where required to break down at a decoupling facility at Charlton, West of Toowoomba. DTMR has constructed a temporary decoupling facility on the Warrego Highway East of the Gatton-Esk Road interchange for the transport industry with the full opening of the TSRC in late 2019.

DTMR is now seeking to establish a permanent decoupling facility along the Warrego Highway corridor on the identified parcel of land from the University of Queensland.

**3. Report**

Correspondence has been received from DTMR seeking formal response from Council to whether there are any objections to the transfer of the land to road for the purpose of establishing a permanent decoupling site. The land area required is approximately 4.65 hectares as shown in the attached plan to this report.

It is anticipated that the provision of this facility would add to the efficiency of the freight task accessing Brisbane and South East Queensland which would see long multi combination vehicles (up to 42 metres long) accessing the decoupling facility with these combinations breaking down to allow further freight movements East.

**4. Policy and Legal Implications**

There is no policy or legal implication in Council supporting or objecting to the Department of Transport and Main Roads proposal to establish a Decoupling Facility on the identified parcel of land.

**5. Financial and Resource Implications**

Council is currently in discussions with DTMR on the potential servicing of the proposed decoupling facility as an extension to our current Road Maintenance Performance Contract (RMPC) with DTMR. Should this facility not go ahead these services and contract variation would not be required.

**6. Delegations/Authorisations**

No new or altered delegations will result for this decision.

**7. Communication and Engagement**

All communication and engagement required from this proposal will remain the responsibility of DTMR.

**8. Conclusion**

Council has no objections to the transfer of the indicated land area for road opening to allow the construction of the Gatton Decoupling Facility for the breakdown of multicomination vehicles.

**9. Action/s**

That the Chief Executive Officer forward a letter to the Queensland Department of Transport and Main Roads of the decision by Council on this matter.

Dear Sir/Madam

**Lockyer Valley Region  
Warrego Highway (Ipswich – Toowoomba)  
Gatton Decoupling Site**

I enclose a copy of Plan No. R3-753 showing an area of about 4.65 hectares required from Lot 167 on SP154248. The State of Queensland (represented by the Department of Transport and Main Roads) requires this area for road.

Please advise whether your organisation has any objection to the transfer of this area to road. If there are objections, please advise the conditions under which your organisation would be prepared to withdraw them.

All costs incurred as a result of such transfer will be met by this department.

Your earliest advice would be appreciated, however in the meantime if you have any enquiries, please contact Steve Jones on 07 3066 1139.

Yours sincerely

  
Andrew Coady

## Background Information

Local Authority: Lockyer Valley Regional Council  
 Road Name: Warrego Highway (Ipswich – Toowoomba)  
 Job No: 265/18A/003  
 Description: TSRC Decoupling Site (Hauser's Road Gatton)  
 The Proposed road opening and resumption of land is required for a multicomination vehicle breakdown facility  
 Resumption Plans: R3-753 826042 & R3-754 826043

### Project background

The Queensland Department of Transport and Main Roads (TMR) has a commitment to deliver as part of the Toowoomba Second Range Crossing (TSRC) Project a Heavy Vehicle Decoupling Facility along the Warrego Highway to the east of its intersection with the TSRC. In early 2018, TMR instigated an Options Analysis to determine a suitable site for the HV Decoupling Facility. The site currently selected is adjacent to the South-eastern roundabout of the Warrego Highway/Gatton – Esk Road interchange.

Long multicomination vehicles (up to 42m long) were previously only permitted to travel on the Warrego Highway to Charlton, west of Toowoomba. However, the advent of the TSRC provides the opportunity to extend access to the East for long vehicles as this would signify economic gains in that there will be no need for repeated journeys to cross the Great Dividing Range to collect decoupled trailers. TMR is also aware that the use of multicomination vehicles will result in a fewer total number of vehicles using the road asset, which should translate to safer road conditions, economic savings and longer useful life for the road asset. While undertaking the process to deliver a purpose-built permanent site, TMR provided a temporary decoupling facility just east of the Gatton-Esk Road interchange to provide this much needed amenity to the transport industry.

In TMR's role of providing infrastructure to assist in economic development, the strategy of permitting multicomination vehicles closer access to the major centres is of significant importance if safe to do so.

### Planning Process

In the planning investigations for the impact of the TSRC it was determined that the existing Warrego Highway East of Gatton was not suitable for use by long combination vehicles without extensive upgrades to the existing road. The link between the Toowoomba and Gatton has been assessed through the planning process and deemed suitable for the use of the long combination vehicles.

Multiple locations for the decoupling facility between Helidon and Gatton were investigated for suitability and prioritised with the Gatton interchange facility identified as the preferred location. The investigated sites were assessed against the following criteria:

- Safe and suitable crossings of the Warrego Highway for heavy vehicles
- Location proximity to the TSRC
- Be located west of Lawes due to topographical constraints that would impact the operation of heavy vehicles and the travelling public.

### Project works

The project consists of the provision of the following:

- Heavy vehicle decoupling facility suitable for 30 Type 1 Road Trains;
- Stormwater runoff collection and water quality control within the site;
- Landscaping for aesthetics;
- Lighting, CCTV and security fences;
- Extension of existing acceleration lanes for both Eastbound and Westbound traffic on the Warrego Highway;
- Increased size of the existing roundabouts to allow Type 1 Road Train movements; and
- Rehabilitation of existing Gatton-Esk interchange.

### Project benefits

The benefits of the Gatton interchange location are as follows:

- Grade separation of heavy vehicle movements;
- All vehicle decoupling located at the one facility;
- Able to provide sufficient storage for the expected long term use of the facility;
- Access from the site to Gatton; and
- Eastern most suitable location for minimisation of return trip length.

**14. ITEMS FOR INFORMATION**

*No Information Items.*

**15. CONFIDENTIAL ITEMS****15.1 Toowoomba Second Range Crossing Project Haulage Routes Compensation**

**Date:** 12 March 2020

**Author:** Ben Lusk, Acting Manager Infrastructure Planning

**Responsible Officer:** Angelo Casagrande, Group Manager Infrastructure

*That the above item be considered in Closed Session to the exclusion of the press and public in accordance with Section 275 (1) (h) of the Local Government Regulation, 2012, as the matter involves other business for which a public discussion would be likely to prejudice the interests of the local government or someone else, or enable a person to gain a financial advantage.*

---

**Summary:**

This report summarises the approach taken to value road defects caused by the increased heavy vehicle usage of various Council roads during the Toowoomba Second Range Crossing project and compensation finalisation.
